Claim Objections

1. Claims 27-28 are objected to because of the following informalities: "A method of **plasma-spaying** a powdered material as claimed in claim 25" should be changed to "A method of **supplying** a powdered material as claimed in claim 25" for consistency throughout the claims. Correction is required.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 30-34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 30 and 33-34 are held to be indefinite because it merely recites a use without any active, positive steps delimiting how this use is actually practiced. *Ex parte Erlich*, 3 USPQ2d 1011 (Bd. Pat. App. & Inter. 1986) and also see MPEP 2713.05(q).

Claims 31 and 32, are held to be indefinite because "A method, comprising :
using the method as claimed in claim 25 for incinerating a powdered material" recites a use without any active, positive steps delimiting how this use is actually practiced. *Ex parte Erlich*, 3 USPQ2d 1011 (Bd. Pat. App. & Inter. 1986) and also see MPEP 2713.05(q). For claims 31-32, in order to overcome the above 112, second paragraph rejection, it is suggested to change claim 31 to

"A method of supplying a powdered material as claimed in claim 25 further comprising the step of incinerating a powdered material".

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 30, 33-34 are rejected under 35 U.S.C. 101, because the method of using the device is not a proper process claim (see MPEP 2173.05(q)).

5. Claims 1-26 and 29 are allowed.
6. Claims 27-28 are objected and will allow if overcome the above objection.

Response to Amendment

7. Applicant's arguments with respect to claims 1-34 have been considered but are moot in view of the new ground(s) of rejection.
8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
